HandiBlock – Flexible Installation for Diverse Applications

Suitable for:  At Sea  On Land

The HandiBlock is a versatile and user-friendly insert block system designed for safe and efficient installation. Available in four sizes, it accommodates cables, pipes, and tubing ranging from 4 mm to 54 mm in diameter. Each unit is composed of two MainBlocks and two InsertStrips.

To simplify installation, each InsertStrip features clearly marked compression rings, helping users match the appropriate cable or pipe diameter quickly and accurately.

- Installing a Handiplug inside the HandiBlock allows for quick creation of a spare block. This can be reopened and adapted later for additional cabling or piping.
- Certified solution for future cable and pipe management.

Sizing

Module	Size	HandiBlock with Plug	Semco part no. w/ plug	HandiBlock without Plug	Semco part no. w/o plug	Plug Semco part no.
HB20	20 mm	37 gram	8105440	32 gram	8111126	8116792
HB30	30 mm	90 gram	8105441	73 gram	8111128	8116793
HB40	40 mm	150 gram	8105442	117 gram	8111130	8116794
HB60	60 mm	382 gram	8105443	300 gram	8111137	8116795

Ranges

	HandiBlock 20 (HB20)	HandiBlock 30 (HB30)	HandiBlock 40 (HB40)	HandiBlock 60 (HB60)
Cable/pipe	Ø4-15	Ø11-24	Ø21-35	Ø32-54
InsertStrip	Ø4-13	Ø11-22	Ø21-32	Ø32-50
MainBlock	Ø13-15	Ø22-24	Ø32-35	Ø50-54
